AN IMPORTANT QUESTION.

There can be no more important question than to know where to purchase the best work in marble or granite headstones or monuments. It is an acknowledged fact that one customer, if well pleased, brings another good customer. No better work can possibly be made than the Columbus Marble Works is producing. For prices and estimates call on or address D. M. JONES, Marble Works, Columbus, Kan.

Afton News: D. A. Harvey is back from the Quapaw agency. He reports a new plan adopted by the Indians belonging to that agency to bring about allotment. The Indian department desired them to take their allotments under the Dawes act which gives each eighty acres. The Indians at once objected and cast about to secure better terms. They finally concluded to organize a government among themselves, allot 200 acres to each and to keep regular records of such allotments. This was done and each allottee was given a patent which provides that all but eighty acres may be alienated. When they had allotted to each his 200 acres they sent a committee to Washington to lay their case before the department. The department was highly pleased with their enterprise and agreed to recommend a bill to Congress ratifying what they had done. The bill has been sent to Congress and the committee has reported favorably upon it.
